

AMMAR

UNREAL ENGINE GAME DEVELOPER

 (+92)370-8714031  muhammudammar@gmail.com  LinkedIn  Karachi, Pakistan

Portfolio: https://www.artstation.com/m_ammarr  <https://www.upwork.com/freelancers/~0144f64bdd5e07f709>

TECHNICAL SKILLS

- Gameplay Programming : [Blueprint Logic, C++ Systems]
- AI Programming : [Behavior Trees, State Trees]
- Level Designing
- GAS Framework
- Animation Blueprinting : [State Machines, Blend Spaces]
- Widget Creation : [UMG Widgets, UI Animation]
- Multiplayer Networking : [Replication Setup, RPC Calls]
- Material Creation : [Material Nodes, Instances Setup]
- Debug Profiling : [Stat Commands, Performance Tools]
- World Building : [World Partition, Level Streaming]

PROFILE

Passionate Game Developer with experience in Unreal Engine, AI systems, and immersive gameplay. Skilled in creating smart NPCs, engaging game mechanics, and optimized performance while writing clean, scalable code. Started game development in 2017 as a hobby and freelance 3D modeler and designer, and enjoy working closely with teams to build high-quality games.

Evil Unleashed

WORK EXPERIENCE

One1.sa(101Dev)

2025 – Present

Unreal Engine Developer | Programmer

- Metaverse Game Developer & Unreal Engine Programmer
- Immersive Gameplay & Multiplayer Systems
- Procedural Worlds Using GeoJSON Data
- Editor Utility Scripting As Technical Artist
- API Integration
- Mobile Performance Optimization

Subrickzz

2024 – 2025

Gameplay Programmer | AI Programmer

- Designed intelligent NPC behaviors Using Behaviour Trees.
- Built immersive gameplay mechanics and optimized AI performance.
- Integrated AI with levels, ensuring smooth player interaction.
- Wrote clean, modular, and scalable code with best practices.
- Collaborated through team meetings, code reviews, and knowledge sharing.

Alter Learning

2023 – 2024

Unreal Engine Game Developer

Celestial

- Enhanced experiences with social, VR, and multiplayer features.
- Created engaging mechanics, UI systems, and immersive environments.
- Designed systems and mechanics for a first-person survival game with educational content.
- Worked on game environment optimization, performance improvements, and level design.

SKILLS

- 3D Modeling : [Blender Modeling, Hard Surface]
- Environment Art : [Modular Assets, Scene Assembly]
- UV Mapping : [UV Unwrapping, Topology Cleanup]
- Character Rigging : [Bone Setup, Skin Weighting]
- Animation Work : [Keyframe Animation, Action Editing]
- PBR Texturing : [Substance Painter, Smart Materials]
- Texture Baking : [Normal Maps, AO Maps]
- Material Setup : [Skin Shaders, Surface Detailing]
- Asset Exporting : [FBX Pipeline, Unreal Import]

PROJECTS EXPERIENCE

BLADEFALL

[View On Steam](#)

2023 – Present

GAMEPLAY PROGRAMMER | AI PROGRAMMER

- Created core combat mechanics from scratch to final execution Using Gameplay Ability System(GAS).
- Programmed enemy AI systems using Behavior Trees and State Trees.
- Implemented lighting, VFX (Niagara), and Animation Blueprints to enhance gameplay immersion.

BILLION YEAR WAR

[View On Itch.io](#)

2022 – 2023

GAME DEVELOPER | DESIGNER

- Designed and developed a complete survival multiplayer game, managing all aspects from initial concept to final deployment.
- Tools and Technologies Used:
 - Unreal Engine for Development.
 - Blender for 3D modeling.
 - Substance Painter for texturing and detailing.

Evil Unleashed

[View On Itch.io](#)

2018 – 2020

GAME DEVELOPER | 3D Asset Creation | DESIGNER

Designed and developed a complete horror mobile game, managing all aspects from initial concept to final deployment.

- Tools and Technologies Used:
 - Unreal Engine for Development.
 - Blender for 3D modeling.
 - Substance Painter for texturing and detailing.

BLAIR WITCH

[View On Art Station](#)

3D Asset Creation | Game Programming

- Designed and developed a horror game prototype based on folklore (Blair Witch).
- Created game-ready assets : [3D Modeling, PBR Texturing]
- Implemented enemy AI behavior : [Behavior Trees, State Logic]
- Built and designed levels : [Environment Layout, Lighting Setup]

EDUCATION

SSUET (Sir Syed University of Engineering and Technology)
Bachelors In Software Engineering

2020 – 2024

- GPA: 3.33/4.0
- Final Year Project (Artistry Haven)Augmented Reality App For Interiors
